EDUCATION

Charotar university of science and technology (CHARUSAT)　　　　**Anand, Gujarat**

Bachelor of Computer Science　　　　Cumulative CGPA: 8.88

- Currently in the 3rd year of my Bachelor of Computer Science program at Charotar University of Science and Technology, with an graduation date of April 2026 and a cumulative CGPA of 8.88.

WORK EXPERIENCE

Freelancer (Remote) - Full Stack Developer (Mar 2023 - Present)

- Developed 10+ full-stack applications using MERN, Flutter, and Laravel, focusing on performance, security, and scalability.
- Managed end-to-end development of client projects through Freelancing, ensuring adherence to clear timelines and milestones.
- Gained valuable experience in client communication, learning to effectively understand and fulfill client requirements while maintaining strong professional relationships with 10+ clients.
- Enhanced project delivery skills by actively collaborating with clients, incorporating their feedback, and adjusting deliverables to meet evolving needs, resulting in a 95% satisfaction rate and 7 repeat business opportunities.

PROJECTS

Rickmate (Affordable Ride Sharing Solutions)

- Design and launched RickMate, a ride-sharing app, serving 200+ active users on the Google Play Store.
- Hosted API on Hostinger and integrated Firebase to send personalized notifications to 200+ users.
- Implemented Google Maps for location selection and utilized Google Places API for seamless place search functionality.

Construction Project (Material Management)

- Built a robust multi-role system featuring 3 roles: superadmin, admin, and staff, designed to manage operations seamlessly across 10+ cities.
- Integrated comprehensive financial reporting features to enhance cost control and optimize resource allocation, improving overall operational efficiency across multiple locations.

Shivdhara Marble (Accounting Software)

- Developed a backend accounting system used by 25+ staff for invoicing, staff management, and reporting.
- Implemented 2 roles, admin and staff, with distinct permissions and functionalities.
- Automated PDF quotation generation with 9,800+ reusable product categories and encrypted product names to meet client security requirements.

SKILLS & INTERESTS

- **Languages:** Fluent in English and Hindi
- **Technologies:** Proficient in Laravel, MERN Stack, Flutter, PHP, and Python
- **Interests:** Passionate about emerging technologies, software development, and continuous learning. I enjoy collaborating on innovative projects and exploring new programming paradigms to enhance my skill set.
